

NARENDRA REDDY

Regional Secretary

Tumkur

Ph: 8884732120

Email: krnarendrareddy@gmail.com

Mr. K R Narendra Reddy, a young person, with a great energy, is one of the youngest Regional secretaries of CBOA.

Everyone has observed his confidence level, while submitting RS report at Jaipur CC meeting, where he has reported that my AGM will not take any decision without consulting me, which shows his commitment to the Bank too.

He has completed his BTech from JNTU and MBA from Osmania University, Hyderabad. During the college days he used to lead the many organizational events.

He has joined in this great Bank in the year 2014 as a P.O. Immediately after training at STC Hyderabad, he has been posted to Bangalore Rural circle and from the day one of his service he used to participate very actively in the association activities and used to bring the problems and issues of the members to the knowledge of top office bearers of the region.

This made him to be recognized by the then RS and DGS of Bangalore rural circle Sri Gajana and Sri Prakash.

Due to his leadership qualities and his service to the members, he has been elected as a Regional secretary in his first biennial conference held at Hyderabad during November 2016.

He has got the inspiration from our great leader Sri G V Manimaran to help the needy and to strengthen the unity among officers and in his starting career he was greatly inspired from Guruji Sri Subbarao.

He has chosen the path of trade union to bridge the gap between members and the management.

As the members hesitate to talk to the management directly and many of their issues cannot be solved, so one layer should be there in between, which can represent to the management and solve the problems. As a leader of association, can solve the problems, so he has chosen the trade union path.

His dream is the strongest CBOA and there should not be any other association except CBOA.

He used to talk with all the members and available round the clock and whatever the knowledge he has got on various issues used to be shared with the other members.

With his active involvement, Thumkur region in Bangalore circle is the top most region in recovery of D4 and Loss assets during canpal recovery camps.

Presently he is working in TM Section of thumkur, where he has helped many branches by tallying minor subsidiaries.

Many branches have kept written off amount wrongly in GLS instead of crediting it to Commission.

He has found out an amount of nearly Rs 1.2 crores, which was adjusted towards the commission.

Hats off to you Narendra and wish you will continue the same spirit and tempo in the days to come and wish for more contribution for the members cause and also in improving our Mother Bank's BUSINESS AND PROFIT.
