THE YEAR OF GLORY AND GROWTH

Living in a fast-paced world, especially in the present scenario of Banking can be quite stressful especially with the increasing pressure and surmounting targets to achieve. Dealing with the daily hustle and stress levels can make us neglect important aspects of life, especially our health. Maintaining long work hours, chasing deadlines, unhealthy lifestyle, and lack of physical exercise invariably leads to poor health patterns that results in low productivity.

In such situations, one often seeks an ideal workplace which fosters a supportive setting and encourages a healthy work-life balance. A vigorous mind can function faster and deliver quality work. This can be best achieved by incorporating sports as a vital part of life. It offers a sturdy platform to practice discipline and maintain strong relationships among colleagues, inculcates better management skills and team building. An employee with a calm mind can make any place, work or home, more vibrant and lively, the effect of which helps produce incredibly progressive results.

It is a humble effort of CBOA to bring about a positive change and create a better ecosystem for our mental and physical health. Sports Meets and Canpal Leagues have been inaugurated in many regions. We encourage a better work environment and pleasant personal lives free from the shackles of vicious competition and stress. Wishing Good Luck to all the teams and individual players. Remember, you never lose until you decide it for yourself.

**BEST

CREATIVITY IS MAKING
MARVELOUS OUT OF THE
DISCARDED

Recycling and Reusing the valuable waste material can result in development of fantastic and usable products. Rather than putting these waste materials into the landfills, various innovative and creative ideas can be put together to being something new and useful.

I have made this Pen Stand by reusing the spice boxes and soap box, Broom stick and Newspaper that we generally throw after using it.

By the use of broomstick and Newspaper, I made Rolls and Stick it on a box to make this Art Piece.

Similarly, we can reuse and recycle things by making Beautiful Art pieces from the best out of waste. Making the best out of waste is a good way to protect the environment. This is because it reduces waste and converts it into useful things instead. Best out of waste promotes environmental conservation and reduces pollution.

By making things out of waste a large portion of the waste dumped into landfills is reduced. Also these type of activities work as a mental therapy and gives relaxation to mind.

JAMES CASH PENNEY

The magnanimous Top Administration of our Mother Bank, who showered historical number of vacancies for our Canpals, has already earmarked the areas to concentrate for the immediate future, i.e, CASA and Retail. We should stand by the mission and vision of our administration, as these areas have time and again proved to be the most potent areas for achieving higher profits in the industry.

A higher CASA indicates an excellent net interest margin. Hence, it is the need of the hour to augment the CASA ratio of our Mother Bank to achieve incredible profit.

WAYS OF BETTER CUSTOMER CONNECT

- 1) Let us be in touch with all the HNI customers of our Bank and seek more business from them.
- 2) Let us make the walk-in customers, join our Canara Bank family.
- 3) Let us visit the nearby institutions and corporates and clinch their accounts along with the salary accounts of their staffs.
- 4) Let us enlighten all facets of savings to our customers.
- 5) Above all, let us serve our customers with a smile.
- 6) Popularise Canara All in One App (Canara a11).

Let us concentrate more on our CASA and Retail portfolios and ensure a massive net interest margin, which will be a great catalyst in pushing our Mother Bank to Numero Uno position in the industry.

LEADERSHIP IS THE CAPACITY TO TRANSLATE VISION INTO REALITY

We lionize one of the visionary leaders, our beloved Shri. K Satyanarayana Raju as Managing Director and CEO of our Mother Bank on 07.02.2023.

Earlier Shri K Satyanarayana Raju took charge as Executive Director of our Canara Bank on 10th of March 2021 and has overseen various verticals in our Bank. He is also a Director on the Board of Canara HSBC Life Insurance Company Limited and Canara Computer Services Limited.

"Technological innovations will be the heart and blood of the banking industry", he construed that Technology is the stark requirement of the Bank because in a banking sector we sell an invisible product, called "Customer Service". With the immense potential of the young Canarites, within the shortest possible time he came out with the best App in the industry while embracing new challenges and continuing to aim for comprehensive growth. He inunciates that 'Canarites' are the impetus of success behind Canara Bank who are playing a critical role in delivering the technology, managing the risks, determining our investments and driving innovation.

Canarites are the stars of Canara Bank.

Let us believe Transparency. Let us believe Hardwork. Let us believe Sincerity.
With a fair management and friendly Trade Union at the helm of affairs, let us synergize a Golden Era that will continue to write history in Golden words.
